TRUST IN OUR TRADITIONAL BRAND QUALITY

Targeted foot care since 1962: peclavus®. Even though there were only very few specific care products to begin with, over the years peclavus® became a brand well-known for its care and treatment range with over 125 different formulations covering almost all requirements of foot, body, hand, and nail care. peclavus® has a tradition as a quality label. This brochure provides useful information on the hand range.

TAKE ADVANTAGE OF ECO-CONSCIOUS PRODUCTION

The skin is not only our largest sensory organ, it also has enormous self-healing powers. The aim of the peclavus® development is to support these self-healing powers in a natural way. Very antiallergic and skin-friendly products are ensured by manufacturing processes where we place particular emphasis on environmental impact, modern filling lines and uncompromising standards of hygiene and quality control.

FINDING YOUR IDEAL PRODUCT MADE EASY

The new peclavus® icons provide a simple and clear overview of the products' application types and areas, respectively. Additionally, you can see at a glance whether or not a product is vegan or a natural cosmetic product certified by NATRUE:

PUT YOUR BET ON NATRUE-CERTIFIED PRODUCTS

All certified peclavus® natural cosmetics are certified by NATRUE, the international quality label for genuine natural organic cosmetics. Throughout the world, this label is only awarded to products meeting NATRUE's exceptionally high standards of naturalness and quality, for example:

WITHOUT

- synthetic fragrances or dyes
- ingredients from petrochemicals such as paraffins (synthetical preservatives) or PEGs (synthetic emulsifiers)
- silicone oils
- irradiation of end products or herbal ingredients
- genetically modified ingredients
- animal testing, also outside of EU
- harmful propellants

WITH

- natural and organic ingredients
- ingredients that can be returned into the cycle of nature
- sustainable production process

100 % vegan

GOOD TO KNOW

LET THE POWER OF NATURE WORK

Nature's diversity is simply unique. For this reason, the peclavus® hand product range trusts in natural ingredients and their powerful effect. This ranges from macadamia nut oil to protect the skin's natural protective barrier and intensively caring argan oil to regenerating pomegranate extract.

INTENSIVELY NOURISHING

GIVE YOUR HANDS THE GIFT OF INTENSE CARE

Some hands need more care than others. This is especially true for dry and mature skin that requires intense nourishing. The active ingredients of argan and lemon myrtle of the peclavus® hand care range are subtly combined to target these needs. Try and see for yourself.

MOISTURISING

GRANT YOUR SKIN'S WISH FOR EXTRA MOISTURE

Your skin acts like a barrier, protecting the body from external influences like sun radiation and bacteria. In order to provide this protection optimally, the skin – on the hands in particular – requires sufficient moisture. Naturally, peclavus® hand care range offers the perfect hand cream. Tip: Why not try it out now?

PREVENT PREMATURE SKIN AGING

Every skin matures with time. Admittedly, there is no avoiding this natural process since it is simply a part of life. However, if you consciously use suitable care products, the first signs of skin ageing can be prevented and the process can actively be slowed down. The peclavus® hand care products are particularly well suited, containing precious pomegranate and sandalwood.

ANTI-AGEING

GOOD TO KNOW

DISCOVER THE HOLISTIC EFFECT OF POMEGRANATE

Punica Granatum (pomegranate) is characterized by its high content of bioactive ingredients. Pomegranate contains large amounts of flavonoids, anthocyanins, polyphenols (e.g. punicalagin, ellagitannin, croscmine, gallic acid or ellagic acid) providing important functions to the growth, maturation, and regulation of cells. It is rich in potassium and contains, among others, vitamin C, calcium, and iron. However, the “punic apple” may not be reduced to a specific group of substances. As a holistic whole, its effect can be compared to that of medicinal plants. Its combination of different ingredients is so specific that it cannot be matched by any laboratory on the planet.

INGREDIENTS

ARGAN OIL

ARGANIA SPINOSA KERNEL OIL

Obtained from the fruit of the argan shrub. Perfectly suited for dry and mature skin since it lastingly optimizes the skin's own barrier function. It's traditional field of application are dermatoses, acne, and allergies.

BAMBOO SPROUTS EXTRACT

BAMBUSA VULGARIS SHOOT EXTRACT

Offers moisture to the skin. It contains, among others, silicon that has a strengthening and firming effect on the skin.

JOJOBA OIL

SIMMONDSIA CHINENSIS SEED OIL

Extracted from seeds of the jojoba shrub by cold pressing. It provides an excellent raw material for creams, lotions, massage oils, and skin nourishment oils. Regenerates, retains moistures, and soothes. The skin quickly absorbs this liquid wax. Very good skin compatibility.

MACADAMIA NUT OIL

MACADAMIA TERNIFOLIA SEED OIL

It strengthens the skin's natural protective barrier. The oil has a high content of palmitoleic acid and regenerating and skin caring effects. Perfectly suitable for the care of dry skin.

INGREDIENTS

ALMOND OIL

PRUNUS AMYGDALUS DULCIS OIL

Obtained from the sweet stone fruit of the almond tree. This oil is a mild vegetable oil with smoothing and lipid regulating properties. Its structure resembles the skin's upper lipid layer and is therefore particularly well absorbed.

SHEA BUTTER

BUTYROSPERMUM PARKII BUTTER

Shea butter is the fat obtained from the seeds of the shea tree. Precious vitamins and care substances improve the skin's moisture absorption, leaving it soft and smooth.

VITAMIN E

TOCOPHEROL

This is a natural antioxidant with anti-inflammatory properties. Regenerates, cares, and soothes. It has a proven moisture-retaining effect on the skin.

WILD ROSE OIL

ROSA MOSCHATA SEED OIL

Like no other oil it supports skin regeneration; for this reason it finds wide application in products for mature skin. Moreover, it makes dry, cracked and flaky skin silky-soft.
