MILD KIDS CARE MADE FUN

Gentle to the skin, especially mild with a super fresh fragrance – this colourful kids product range turns body care into an exciting adventure. Fun guaranteed!

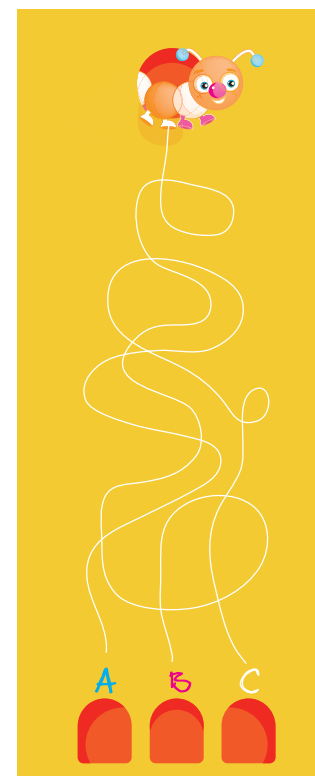

RIGHT FROM THE START: LAYING A FOUNDATION FOR BODY CARE

Feel good in your body thanks to perfect care. It's sensible to interest children in this subject early in life. In this manner, it is possible to pave the way to an exceptional body awareness at an early stage. Feet, for example, can then be perceived as precious, a part of oneself that carries through life and deserves to be looked after. At the same time, children are taught the increasing importance of natural skin and body care when growing up.

Thanks to its high content of active ingredients it plays a valuable part in the resistance and vitality of the skin. At the same time, it supports skin regeneration and promotes healthy development. For this reason, calendula provides excellent protection for the developing skin of children.

The peclavus® kids measuring system is a pre-cut cardboard. Set up the heel support, position the foot and tear off at the toe – finished. The cardboard strip will be inserted into the shoe, 12 mm room to move are already included. If it fits flat into the shoes – everything is alright, if it is vaulted up – shoe too small! When buying new shoes, simply tear off 5 mm longer. A simple but safe principle.

Of course, the colour needs to be washed off - even more fun when doing it in a shared foot bath.
